Summary

Android Developer with a strong foundation in Kotlin, Java, Android SDK, and Firebase. Skilled in designing, developing, and optimizing mobile applications with clean UI and smooth user experience. Interested in collaborating on innovative app development projects in fast-paced environments.

Education

Sarala Birla University, Ranchi

Bachelor of Computer Applications (BCA)

2022 – 2025

CGPA: 8.53/10

Annada College, Hazaribagh

Senior Secondary (XII), Science – JAC Board

2022

Percentage: 78.20%

Appreciable Public School, Parsabad

Secondary (X) – CBSE Board

2020

Percentage: 66.20%

Skills

Programming Languages: Kotlin, Java

Mobile App Development: Jetpack compose, XML, Android SDK, Android Studio, Firebase, REST APIs

Database & Backend: SQLite, Firebase Realtime Database, Room Database

Tools & Technologies: Git, GitHub, Material Design, API Integration, Debugging

Experience

Android Developer Intern (UJEC)

April 2025 – June 2025

Collaborative Team Project (Remote)

Tools Used: Android Studio, Kotlin, Firebase

- Developed and maintained Android application features using **Kotlin and Android SDK**, improving app performance and user experience across multiple modules.
- Integrated Firebase Authentication and Realtime Database to enable secure user login and real-time data synchronization within the application.
- Designed responsive and user-friendly UI components following **Material Design principles**, ensuring compatibility across different Android devices and screen sizes.
- Collaborated with developers and senior mentors to debug issues, optimize APIs, and enhance application stability through testing and performance improvements.

Projects

Self Discover App | Kotlin, Jetpack Compose, Firebase, Room Database

March 2026 – April 2026

- Developed a productivity and wellness Android application that helps users manage daily to-do tasks and practice guided breathing meditation sessions.
- Implemented secure user authentication using **Firebase Authentication** for seamless sign-up and login functionality.
- Integrated **Room Database** for efficient local data storage and real-time tracking of user tasks and activities.
- Designed a modern and intuitive UI using **Jetpack Compose** and followed **MVVM architecture** to improve scalability, maintainability, and clean code structure.

Certifications

- **Android App Development – Internshala Trainings:** Successfully completed an 8-week certified training covering Kotlin, Jetpack Compose, Android fundamentals, and modern Android app development concepts.
- **Complete Kotlin Development Masterclass – Udemy:** Completed a comprehensive Kotlin programming course by **Catalin Stefan**, covering core and advanced Kotlin concepts for Android development.
